

Profile

I'm a Software Developer who is passionate about learning and fascinated with teaching robots to solve everyday human problems.

Skills

Ruby on Rails	Object-Oriented Programming	Ruby
JavaScript	BDD	GIT
Angular	HTML	CSS

Projects

ignitebot.com, Code Fellows collaboration 2015

Collaborated with 2 individuals to build a fully functioning authenticated, authorized, designed and deployed web app in 1 week. Ignitebot talks to your social network promoting ideas, garnering support for any cause i.e.: a business, a deal, an event, or a party. Personally implemented O-auth, devise and the schema configuration. My initial idea, scrum leader highlighting the power of RoR. #RoR #HTML #CSS

CaseHawk.com, Code Fellows collaboration 2015

Experienced dealing with an extensive production app, from which I personally created an Angular Front end for a REPORTS tab, that lists attributes of each case in a CSV format. Worked within a 5 person team to debug and present new features on a deadline. #Angular #RoR #JS #HTML #CSS

Work Experience

Assistant Sales Manager, Ethos Consulting Group, Denver, CO– 2012-2014

- Consistently in the top 10% of sales out of over 500 representatives, top 5% for over 1 year
